## CAVE DESCRIPTIONS

The caves are grouped by province and amphoe (administrative district) and then listed alphabetically. The code letters were created by John Dunkley in "Caves of Thailand" and have been continued in the Thai caves database maintained by the author.

All co-ordinates are UTM grid on the WGS 1984 datum.

Abbreviations, acronyms and symbols used:

† = topographic name from map or gazetteer – it is possible that there isn't a cave at these locations.

Alt.: - altitude

BCRA – British Cave Research Association

SMCC – Shepton Mallet Caving Club, UK

SSAPO - Société Spéléologique de l'Ariège-Pays d'Olmes, France

UIS – Union Internationale de Spéléologie

VR – vertical range of the cave.

### *Khon Buri*

†Tham Klaeb NR0041

ถ้ำเกลบ

48P 193541 1603146

Khao Tham Klaeb Priest's Campsite

The campsite is 11 km south-west of Khon Buri.

†Tham Phaya Naak NR0047

ถ้ำพญานาค

48P 211028 1586781

Wat Tham Phaya Naak, Lam Phiak

The temple is 11 km south-south-west of Tabaek Ban on the H224.

Tham Wua Daeng NR0004

ถ้ำวัวแดง

48P 206476 1603553

Wat Khao Tham Wua Daeng, Chaling

Other names: Red Cow Cave; Tham Ngua Daeng

The temple is on the southern edge of Chaliang.

The 'cave' is formed by large sandstone boulders. The site is famous for a bas-relief carving dating to the 11th century representing Shiva and Uma on Nadin (the red cow or wua daeng in the cave name) accompanied by attendants or ascetics (5 evas and 2 rishis). These are Hindu deities, not Buddhist. Unfortunately the carving has been severely disfigured by vandals and the cave is closed to the public.

## *Pak Chong*

**Cave NR0008**                      **NR0008**  
 47P 758177 1619451  
 Nong Nam Daeng

1 km south of the H2 on the way to Tham Trirat. The cave is at foot of a small, but prominent, tower about 40 m high with a 2 m seated Buddha on top. Steps lead down to a small electrically lit cave.  
 Dunkley (1995)

**Cave NR0009**                      **NR0009**  
 47P 758117 1624985  
 Pak Chong

In a wat 500 m from the 167 km post, north of the H2, 2 km east of its junction with the H2090.  
 Dunkley (1995)

**Cave NR0010**                      **NR0010**  
 47P 760177 1621451

 น้ําพุ  
 47P 740961 1621502  
 Wat Nam Phu, Klang Dong

The temple is 2.5 km north of Klang Dong, which is on the H2.  
 "Nam phu" translates as fountain so there is possibly a resurgence at this temple.

**Tham Badan**                              **NR0014**  
 Wat Tham Badan

Take the H2090 into Pak Chong. Just east of downtown, make a left on to the H2247 (marked Ban Lamsomphung). After 5 km make a left on to a narrow asphalt road then after 400 m turn right onto a dirt road. After 3.2 km turn left on a dirt road to Wat Tham Badan, 3.4 km away.

An easily accessible network of decorated, high-domed chambers reached after only a short walk from the monks' sala. There are stairs, ladders and concrete paths built by the monks - along with natural light due to a skylight in the cave's roof.

**Tham Khao Luk Chang**                      **NR0001**  
ถ้ำเขาลูกช้าง

47P 752903 1608326  
Khao Luk Chang, Mu Si  
Length: 122 m  
Other names: Tham Khang Khao

Khao Luk Chang is just outside the Khao Yai National Park. It is 2 km east of the H2090 in Mu Si, 15 km south of the H2. The cave is signposted in English as the 'Bat Cave'. The entrance is 150 m to 200 m above a minor road at the base of an impressive limestone cliff.

Climbing to the entrance is not easy via an overgrown path or dry stream bed which lead up through dense undergrowth to a series of climbs. Getting closer to the entrance the smell of bat droppings becomes more and more unpleasant.

The cave has a single good sized passage (6 m wide by 10 m high) which progressively reduces until it becomes an impenetrable rift, reached after a climb of 5 m. At this point there is a side passage (3 m wide by 5 m high) that was not followed because of an uninterrupted flow of bats. The stench of ammonia is at the limit of what is bearable. Guano is extracted from the cave, which is knee deep in places.

Interestingly the bats appear on the other side of the hill, indicating a through cave several hundred metres long.

The cave was explored and surveyed by Claude Mouret, Violane Caron and Philippe Jarlan on 19 August 1994.

On 2 April 1998 villagers collecting guano were attacked with a hand grenade. Five were killed and two others injured.

The bat colony of *Chaerephon plicata* (Buchanan, 1800) is estimated at 500,000 to 750,000 individuals.

**Tham Nam** NR0022

ถ้ำน้ำ

47P 747972 1611350 Alt.: 457 m

Wat Tham Phrommachon Priest's Campsite, Pha Ya Yen

Length: 260 m VR: 14 m

Other names: Tham Naam

The temple is 4 km north-west of the Khao Yai Golf Club. The cave is in the monastery grounds.

The cave is wet from the start and by 10 m inside the water was chin deep. The main passage involves wading past gravel banks, gour dams, a 2 m climb down, a short swam, more wading with several little gour dams, then a 3 m wide by 15 cm airspace at the end of a 2 m deep pool with a thick mat of floating organics. A few more wades leads to a steel ladder going down a 4 m pitch to a deep water sump chamber. There are also several little fissures and side passages. The entire cave floods to the ceiling.

Tham Nam was explored and surveyed by Bill Fanning, Mike Futrell and Dean Smart on 26 April 2000.

The temple is 4 km north-west of the Khao Yai Golf Club. The resurgence is on the other side of the hill from Tham Nam (NR0022), near the road.

**Tham Nam Yoi** NR0023

ถ้ำน้ำข่อย

47P 743716 1616365 Alt.: 750 m

Pha Ya Yen

Length: 40 m VR: 8 m

Other names: Tham Meta; Tham Naam Yoi

Originally explored from the Wat Tham Phrommachon Priest's Campsite on a 6½ km, 2½ hour uphill hike from the monastery. Access may be shorter and easier from the H2 as the hill is 3 km south of the highway along the H2220.

The original explorers were guided to the cave by a monk. The cave is in effect a big shelter and the monk name it Tham Nam Yoi, but writing at the back of the chamber called it Tham Meta. Stone steps led into the entrance. Covering much of the floor of the cave is a raised wooden platform. A table with a simple Buddha shrine is against the right wall and just outside is a small wood house.

The cave was explored and surveyed by Bill Fanning, Andrea & Mike Futrell and Dean Smart  
27 April 2000.

**Tham Pho Thong** NR0006

ถ้ำโพธิ์ทอง

47P 756895 1618667

Wat Pho Thong, Nong Nam Daeng

Length: 500 m

The cave is 3 km south of the H2 and 5 km west of Nong Nam Daeng on the H2090.  
Steps lead up to a roughly circular entrance chamber 40 m in diameter with passages off, one called Tham Chalawan containing a small active rim pool. The lower unlit passage is said to be over 500 m long. The main chamber is well decorated, 5 to 10 m high, mostly cemented and has a reclining 3 m Buddha near the door. The alterations to the cave date from 1960.

Dunkley (1995)

**Tham Udom Suk** NR0020

47P 738275 1617126

Wat Tham Udom Suk, Pha Ya Yen

Other names: Tham Mae Chee Udom Suk

From Saraburi take the H2 towards Nakhon Ratchasima. Make a U-turn on the highway just after passing through Muak Lek and take Gudkhla Pansuk road towards the Khao Yai National Park. The short dirt road to Wat Tham Udom Suk can be found on the left 2 km along the Gudkhla Pansuk road.

More than 300 steps ascend from the wat to the first of two mountaintop caverns. Another set of stairs then drops into the first cave. Forming a natural altar, two massive flowstone cascade flank a golden Buddha image. Behind the altar, above a small limestone pool, the chamber's concave dome swoops down to meet the rising floor. From the 20 m high ceiling, water trickles in tiny, calcite-laced dribblets onto a small thicket of ferns and orchids.

Dulles (1998)
